Unearthing kids's strengths

by Professor Lea Waters (PhD)

Personality strengths – our character – play a big role in helping us build our our talents. Think about anyone who has built a talent and imagine if it could have been done without character. Imagine Einstein without curiosity, The Beatles without creativity, Mother Teresa without compassion or Neil Armstrong without bravery.

Yet for decades, scientists were blind to character strength. We focused on talent, often on physical strength and skills. In fact, when I first ask young children what they think a strength is, they almost always point to their biceps or talk about being able to lift something heavy.

Once you get familiar with the language of strengths and a framework for seeing them, you'll see character strengths easily in your child. In fact, you may find your child calls on their character strengths more often than on talent to meet life's challenges.

Three key elements of a strength

You've probably seen a child joylessly perform at a piano recital. They may hit all the right keys, but there's no energy or enthusiasm. It's as if they don't want to be there. On the flip side, we've seen the child onstage who's clearly motivated and energised and who fearlessly flails through every mistake – of which there are many.

It turns out that three elements come together to form a strength. For purposes of strength-based parenting, we need to keep our eye on all three:

1. Performance (being good at something).

Watch for when your child shows above-age levels of achievement, rapid learning, and a repeated pattern of success.

2. Energy (feeling good doing it)

Strengths are self-reinforcing. The more we use them, the more we get from them. They fill us with vigour. You'll notice your child has abundant energy when using a strength.

3. High use (choosing to do it)

Finally, look for what your child chooses to do in their spare time, how often they engage in a particular activity, and how they speak about that activity.

For true strengths, these three elements form a beautiful feedback loop: great performance provides the child with a shot of high energy, so the child naturally chooses to do more. In turn, high use – also known as effort or practice – improves performance levels. So, for example, if you notice that your child is energised when they play the piano, and you provide enjoyable opportunities for them to play, if they're mining a true strength they will

likely practise more, which improves their performance, which then energises them ... and so the loop continues.

Keeping this triad in mind will help you avoid pushing your child into an area that seems like a strength just because your child is good at it. It will also help you differentiate between whether your child is bingeing on an activity in an escapist way or expressing a true strength.

For example, when a parent asks me, 'My son is great at computer games and wants to play all the time. Is that a sign of a strength?' I reply, 'Observe his energy levels at the end. Is he drained and cranky? Or energised and full of life? Are you seeing the full triad?' Computer games can tap into a child's strategic and problem-solving skills or stimulate creativity (in some games, you invent whole new worlds). Or they might just be about filling time.

So look for all three signs. When you see your child do something well, with energy, and repeatedly, you'll know you've unearthed a strength.

You can attend our upcoming webinar, [Switching on your child's Strengths](#), at no cost!

As your school is a Parenting Ideas Schools member, you can attend our upcoming webinar [Switching on your child's strengths](#) with Professor Lea Waters at no cost! Use the voucher code below to register for the webinar valued at \$37 per person.

About the webinar

The extraordinary results of focusing on our children's strengths rather than always trying to correct their weaknesses is explained in this webinar.

As a strength-based scientist for more than 20 years, Professor Waters has seen how this approach enhances self-esteem and energy in children and teenagers, and how parents find it exciting and rewarding. With many specific techniques for parents, she will demonstrate how to discover your children's strengths and talents, use positive emotions as a resource, build strong brains, deal with problem behaviour and talk about difficult situations and emotions.

When

Wednesday 6 March 2019 8:00 PM – 9:00 PM AEDT.

Price

This webinar is \$37 per person to attend, and is free of charge to families at schools that have a Parenting Ideas membership.

How parents can redeem the voucher

1. Click this link: <https://www.parentingideas.com.au/parent-resources/parent-webinars/webinar-switching-on-your-childs-strengths>
2. Click 'Add to cart'
3. Click 'View cart'
4. Enter the voucher code STRENGTHS and click 'Apply'. Your discount of \$37 will be applied to the order. This voucher is valid until 6 April 2019.
5. Click 'Proceed to checkout'
6. Fill in your account details. These are the details you will use to login to your account and access your parenting material
7. Click 'Place Order'

Your Parenting Ideas Webinar Voucher

Webinar: *Switching on your child's strengths*

Guest Speaker: Professor Lea Waters (PhD)

06 March 2019 - 08:00pm

The voucher graphic is orange and trapezoidal. At the top center is a circular icon containing a laptop with a speech bubble. Below this is a dashed box containing the text 'VOUCHER CODE STRENGTHS'. Underneath that is the text 'VALID UNTIL 06 APRIL 2019'. A white button with the text 'Download PDF Version' is positioned below the validity date. At the bottom of the voucher, it says 'Attend this webinar at no cost'. On the right side of the voucher, the text 'Valued at \$37' is written vertically.
